DETAILED ACTION

Allowable Subject Matter

Claims 1, 42, 43, 45-72 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 42, 43, 45, 46, 47, 49, 53-61, 63, 66-69 with the allowable features being; the third lens group has a negative lens closest to the object side(claims 1, 43, 46, 47) ; the fourth lens group consists of one lens component(claim 42, 45, 49, 61, 62); the third lens group consists of, in order from an object side thereof, a double-convex positive lens, and a having a positive meniscus lens convex on an object side thereof(claim 56, 57); or a third lens group having, in order from an object side thereof, a double-convex positive lens, and a doublet consisting of a positive meniscus lens convex on an object side thereof and a negative meniscus lens(claim 58); or a positive third lens group having, in order from an object side thereof, a positive single lens convex on an object side thereof and a doublet positive lens convex on an object side thereof(claim 60); the conditional relationships pertaining to the lateral magnification, the focal length or the radius

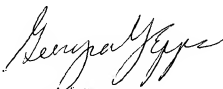

of the image circle(claims 48, 53-55, 59, 63, 66-69) where not found in the prior art. Therefore claims 1, 42, 43, 45-72 are allowed.
